

EXTENDED DIPLOMA IN SUSTAINABLE BANKING AND FINANCE

Awarded by _____

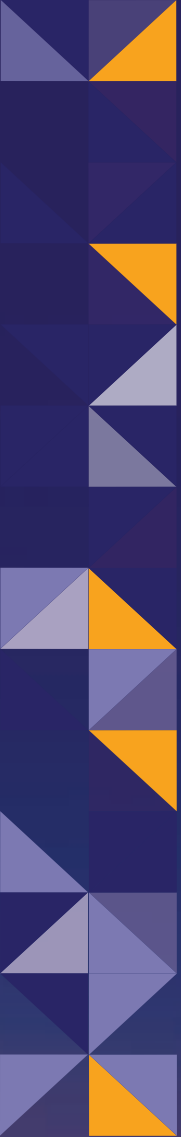

Who Are We?

Westford Learn is a flexible, self-paced learning platform designed to make quality education more accessible, engaging, and career-focused. Built for students, professionals, and lifelong learners, the platform combines academic excellence with the convenience of learning anytime, anywhere.

What Do We Do?

We deliver modular, outcome-driven learning experiences that help individuals gain new skills, enhance existing knowledge, and work towards recognised qualifications. Our programs are designed to support both professional development and academic progression through structured learning pathways.

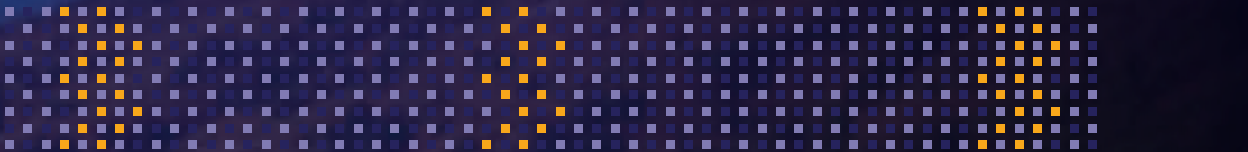

How Do We Deliver Learning?

Westford Learn offers a digital learning experience through expert-led pre-recorded videos, essential readings, interactive learning resources, quizzes, and assessments. This self-paced approach allows learners to study according to their own schedules, revisit content when needed, and progress at a pace that suits their goals.

What Can You Achieve?

Learners can access a range of pathways, including short courses, micro-credentials, and diploma programs, with opportunities to build skills progressively through stackable learning modules. Supported by Westford Learn certifications and quality-assured qualifications in collaboration with Qualifications Scotland, these programs help learners develop future-ready competencies and achieve meaningful academic and career outcomes.

SUSTAINABLE
BANKING AND
FINANCE

LEARNING OUTCOMES

STRATEGIC LEADERSHIP AND HR PRACTICES IN ORGANISATIONS

- Critically analyse the significance of Strategic Human Resources Management and its changing landscape in organisations.
- Critically discuss the impact of Human Resources Management activities on organisational performance.
- Evaluate various leadership styles and practices in organisations.
- Plan how to implement change in an organisation.

ACCOUNTING FOR NEXT-GENERATION LEADERS

- Understand management control and analysis of financial information that includes management reporting, financial analysis, budgeting, and forecasting.
- Understand the activities where finance and accounting departments have high responsibility, visibility, and the potential to significantly impact organisational performance.
- Understand how to blend the relevant knowledge associated with financial and management accounting within performance standards and operational procedures of modern-day business.
- Understand how to control aspects of cash flows, bottom line, capital allocation strategies and processes, develop growth and exit strategies, design budgets, business models and forecasts, and strengthen working capital requirements.

STRATEGIC MANAGEMENT

- Critically evaluate the relationship between strategy, stakeholder expectations and organisational performance.
- Evaluate the impact of current and emerging economic, political, and Cultural factors on the strategic management of an organisation.
- Formulate innovative business strategies designed to contribute to the success of an organisation.
- Critically assess different leadership styles in developing corporate values, social responsibilities and managing strategic change.

OPERATIONS AND PROJECT MANAGEMENT

- Understand the relationship between supply chain and logistics management and its link to organisational business strategies.
- Be able to use information technology to optimise supplier relationships in an organisation.
- Understand the role of logistics and procurement, including the buyer/supplier relationship in the supply chain industry.
- Understand the basics of shipping operations, including the documentation involved.

MONEY, BANKING, AND THE FINANCIAL SYSTEM

- Critically assess the role of money and financial institutions in the global economy.
- Demonstrate in-depth knowledge of central banking operations and critically evaluate the impact of monetary policies on economic stability.
- Conduct a critical analysis of financial markets and instruments, assessing their influence on business and investment decisions.
- Exhibit leadership in proposing improvements to corporate governance and financial compliance frameworks.

- Critically evaluate key principles, concepts, and frameworks of sustainable development and environmental management, evaluating their relevance to current and future environmental, economic, and social challenges
- Reflect on complex environmental systems, integrating sustainability theories, frameworks, and assessment methodologies to develop innovative and effective solutions for sustainable development challenges.
- Critically evaluate environmental assessment techniques while considering ethical, societal, and financial implications in sustainability decision-making.
- Assess the purpose of Environmental sustainability and describe the different communication methods used in sustainability issues, strategies, and solutions to diverse audiences, demonstrating professional competencies in problem-solving, decision-making, and leadership within environmental and sustainability-related contexts.
